SKILLS

- **Languages**: PYTHON, C, C++, JAVA
- **Libraries/Framework** TensorFlow, OpenCV, NumPy, Pandas, Scikit-Learn,
- **Core concept** Data Structure & Algorithms, OOPs, DBMS, NLP, Computer Vision
- **Frontend** React.js, HTML, CSS
- **Backend** Node.js, Express.js
- **Database** MySQL, MongoDB
- **Tools/Platforms** Git, GitHub, Jupyter Notebook, Vercel, Render,
- **Soft Skills**: Team Player, Adaptability

PROJECTS

EventHive - Full-Stack Event Ticketing & Admin Analytics Platform: Jan - Mar 2026

Developed a full-stack event ticketing platform with React + Vite frontend and Node.js/Express + MongoDB backend
Built transaction-safe booking and cancellation logic using MongoDB transactions, ensuring seat consistency and overbooking prevention.

Created admin dashboard features for event management, booking monitoring, seat summaries, and downloadable Excel reports

Tech: React, JavaScript, Node.js, Express.js, MongoDB, JWT, Axios

Crop Recommendation System: Feb-May 2025

Built a full ML-based system to recommend the most suitable crop using soil nutrients (N, P, K), temperature, pH, and rainfall data.
Implemented Random Forest (99% accuracy) for classification and K-Means for pattern discovery in soil clusters
Conducted detailed research covering soil analysis, climate impact, and agronomic factors to improve decision-making for sustainable agriculture.

Tech: Python, Machine Learning, Random Forest, K-Means, Pandas, NumPy, Matplotlib, Jupyter Notebook

EXPERIENCE & TRAINING

Summer Training - Advanced Python for ML & AI | cse pathshala Jun – Jul 2025

Completed intensive summer training focused on Python-based data analysis and automation techniques.
Developed scripts for automated data extraction (Web Scraping) and handled large-scale datasets using Pandas and numpy .
Implemented data visualization modules to interpret complex data trends, enhancing decision-making accuracy.
Gained hands-on experience in software development lifecycles and collaborative coding practices.

CERTIFICATES

- Gen AI NASSCOM(b Skilling) February 2026
- Advanced Computer Networks (Nptel) Jan -Apr 2025
- The Bits and Bytes of Computer Networking (Google) September 2024
- Crash course On python (Google) January 2024
- Legacy Responsive Web Design V8 (Freecodecamp) Aug-Oct 2023

ACHIEVEMENTS

Secured **5th place** in the Hackathon **Binary Blitz**, showcasing strong teamwork and practical projects

EDUCATION

Lovely Professional University Punjab, India
- *Bachelor of Technology - Computer Science and Engineering;* ***CGPA: 7.73*** *2023-2027*

G.S.S SCHOOL Rewari, Haryana
- *Intermediate;* ***Percentage: 69*** *March 2022*

S.D. HIGH SCHOL Rewari, Haryana
- *Matriculation;* ***Percentage: 74*** *March 2020*
